With you day by day ♥

Manufacturing since 1975

Manufacture all our own products including the entire process **from the design of the mold to the manufacture and distribution in the market**, allows us to react very quickly to the major changes that the market demands today.

Our Company's Task

Find archiving and classification solutions to our customers, offering leading products in quality and reliability at the most competitive price and with the shortest possible delivery time.

Work Philosophy

Our company is characterized by teamwork, collaboration and cooperation being the fundamental aspects necessary for smooth day-to-day functioning.

Professional Ethics

Our code of ethics is mainly characterized by our commitment to our staff, customers and suppliers. We provide added value to our customers and satisfy their needs in a socially responsible way.

At your Service

Archivo 2000 has a highly-qualified staff who make up our valuable human capital, key in the high rhythm of growth and expansion that has been experienced in recent years.

Ardos

Our line of solid, light-weight and functional high-capacity binders.

COVERS MADE OF HIGH-QUALITY CARDBOARD, WITH PROTECTIVE BOUND EDGES INJECTED WITH PLASTIC

Binders manufactured with painted steel spine provided with interchangeable identification tab with label measuring 54 x 64 mm and thumb hole.

Its exclusive mechanism with a 3 position fastening system allows documents to be consulted or photocopied, without having to remove them.

Apart from the standard models, **the Ardos binder can be manufactured in any size or colour**, with a single or double spine and equipped with handles (briefcase).

The Ardos binder with a double-spine of 120 mm has a capacity of up to 1000 pages or 500 classifying punched pockets.

The handles can be affixed to the spine, as well as to the covers, making its handling and carrying very easy. The perfect item to use as a sample catalogue with a great number of references.

Covers can be personalized using screen printing and thermographic printing techniques.

The quality of its manufacture guarantees that your documents will remain safe from breakages, falls and dump making it the “Rolls Royce” of the filing cabinets.

100% Customizable

In addition to the standard models, the Ardos binder can be manufactured in any size or colour, with single or double spine and handles (suitcases).

Customizable covers through screen printing, pad printing or thermographic printing.

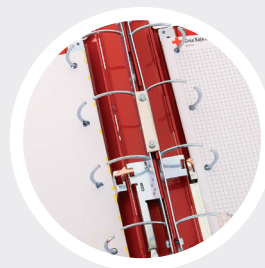

ARDOS MECHANISM

The Ardos binder can be made to order with any of the mechanisms detailed below.

POSITION 3:
CLOSED MECHANISM

Bucca

Binders available in DIN-A4 format with identification tab holder on spine that includes interchangeable label measuring 43 x 96 mm

High capacity binders, occupying 33% less space

Manufactured with polypropylene spine, the covers can be made with durable cardboard reinforced with plastic-injected edges or completely made in plastic.

Its exclusive mechanism with a 3 position fastening system allows documents to be consulted or photocopied without having to remove them.

Easy to open with a simple level system. It is available with 2 or 4 rings and 40 or 60 mm spine.

100% CUSTOMIZABLE

The Bucca binder can be manufactured with special covers, in any size or colour and printed using screen printing or thermographic printing techniques.

Transport boxes that can be joined together thanks to their practical anchors, building an accessible shelf.

Lever mechanism with 80 mm ring spacing (2 rings), with a compressor bar allowing the removal of all documents at once, in order to be filed with ease.

Archirrado

Plastic binder Rado System for DIN-A4 formats

Available in Din-A4 format with identification tab holder on spine, which includes interchangeable 42 x 92 mm label and thumbhole.

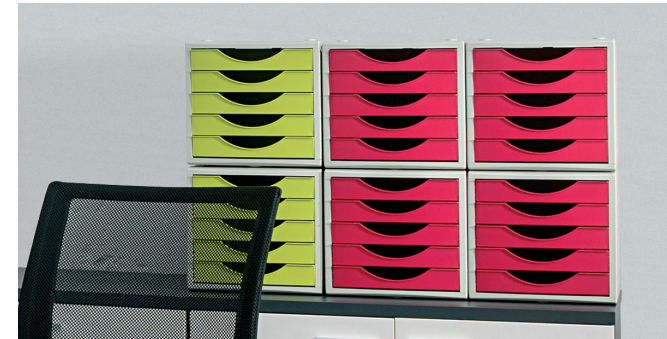

5 TRANSLUCENT COLOURS

5 smooth-gliding drawers with a safety catch.

Archivotec modular system is the perfect complement for any workplace, adapting to the needs of each user.

9 OPAQUE COLOURS

ArchivoTec

SERIE 4000

Modular system for perfect stacking, by simply placing one module above the other.

5 smooth-gliding drawers with safety catch.

Appropriate for A4, Folio and sub-folder formats.

Modular drawer unit with organizing trays

Modular System with stackable drawers and safety catch to prevent falling out when opened.

Smooth gliding. Specially designed drawers for easy retrieval of documents.

Units are easily stackable and secured by placing one above the other.

Wheels can be incorporated to turn into office trolleys without having to add any additional platform.

The top part of the unit comes with an organizing tray.

They are available with 3 or 6 drawers and in opaque and translucent colours.

ArchivoTec SERIE 6000

Drawer Module Unit ideal for A4 format and for documents measuring up to 270 x 325 mm, with an organizing tray at the top and easily stackable by placing one above the other.

MOBILE TROLLEYS

ArchivoDoc

Ideal modular structure for separating and classifying documents and mail, appropriate for DIN-A4, DIN-A3 formats and envelopes up to format C4. Includes identification tab holders.

Its modular structure provides the possibility of vertical and horizontal constructions, with a range of heights, through the use of additional accessories.

Perfect for placing on shelf units or inside office cupboards

Its modular structure permits you to obtain different heights, as well as horizontal and vertical constructions, by means of using additional accessories.

Large or small drawers, with interchangeable fronts can be incorporated.

In the hollow standard space either two small drawers or one big drawer can be inserted.

In the hollow jumbo-sized space four small drawers or two large drawers can be inserted.

Visit our video and discover the Archivodoc

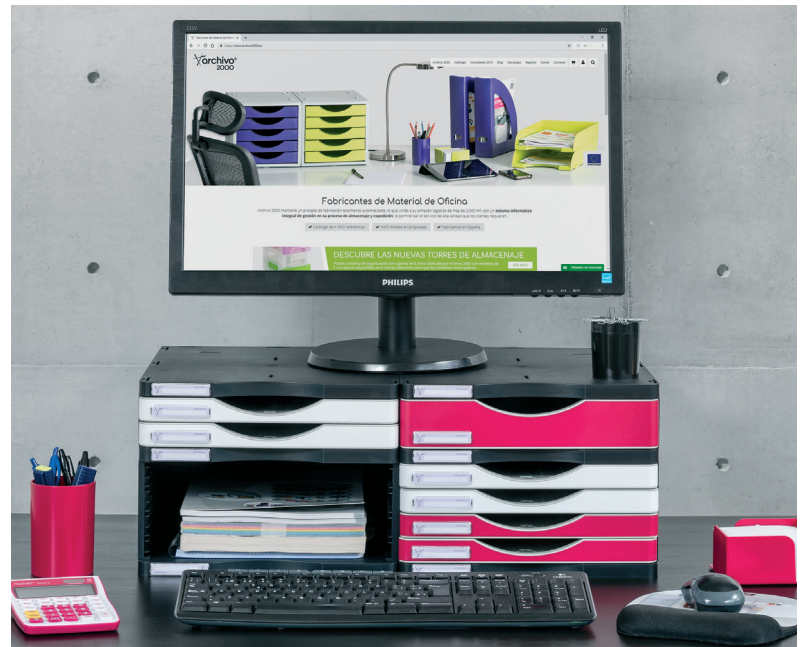

Vertical Filing Systems **with vertical dividers**, ideal for placing on top of the dual models, both Standard (Ref 6522) and Jumbo (Ref 6622), provide the **perfect combination to classify documents easily and comfortably**.

ArchivoDoc makes your workspace useful and tidy, giving your office an elegant look. It can be placed on any surface, bookshelf or cupboard.

Drawers with interchangeable front panels!

You can choose **between 10 colours** and combine them to your liking.

Build your ArchivoDoc

Its modular structure provides the possibility of vertical and horizontal constructions, with a range of heights, through the use of additional accessories.

The height you need

Extensions available in two heights: 58mm (standard) and 115mm (jumbo).
All the extensions include an identification tab-holder for each hollow.

Hollow or drawers?

The Archivodoc offers the possibility of incorporating large or small drawers, with interchangeable fronts produced in 10 opaque colours.

In the standard hollow module, 2 small drawers or 1 large drawer can be inserted, while in the jumbo hollow module, 4 small or 2 large drawers can be inserted.

Create your structure according to your needs:

- Number of bases and heights desired.
- Select the paper format DIN-A4 or DIN-A3.
- Choose the size of the hollow.
- Possibility of adding drawers with interchangeable front panels.

Permanent contact mechanism

Height adjustable seat. The backrest tilts forwards or backwards to adapt to the user's back. Recommended for frequent use (3-6 hours).

Body balance mechanism

Height adjustable seat. Backrest and seat move together, maintaining the position of the central axis, allowing the user to rock softly. Recommended for intensive use (3-8 hours).

Chairs with permanent contact mechanisms

Ergonomic Office Chairs that combine design and elegance.

Chairs with synchronized mechanism

Chairs with tension regulation that allows adjusting the inclination of the seat accompanying the inclination of the backrest. Recommended for intensive use (8 hours a day).

Chairs with swiveling mechanisms

Executive Office chairs that help you obtain the perfect work environment combining both design and elegance.

Archicubo

Modular organizers injected with transparent or brightly-coloured, high quality polystyrene.

Ideal for organizing and classifying all types of small-sized material in the interior of filing cabinets, shelves or drawers

Modular organizer ideal for cabinets, shelves and drawers

Its innovative clip system allows them to be joined together vertically, as well as horizontally, without falling.

8 different possibilities of classification exist: hollow spaces, with vertical or horizontal dividers or with different combinations of drawer arrangements.

Each model includes 2 plastic fastening clips.

Removable drawers that can be opened independently.

Plastic fastening clips to form firm structures

Coat racks with steel structure and high quality finishes.
Durable and ergonomic footrests with massage-effect surfaces.
Coin holder trays made with tough injected plastic.
Coin holder boxes with handle and safety lock with two keys.

Upright- and hanging-umbrella holders and ashtrays with high resistance to bumps and scratches and cleaning products.

Easy to clean. Perfect for all types of offices, commercial spaces and department stores. Made of plastic, they do not suffer from rust.

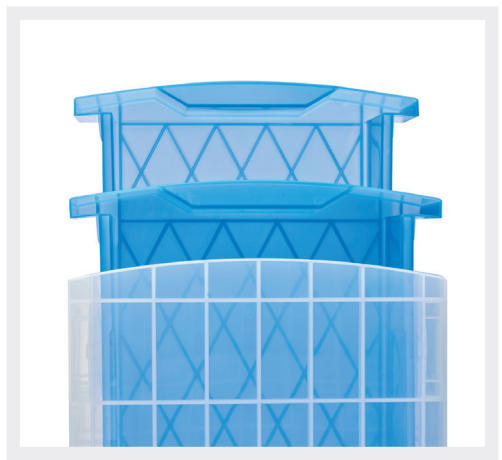

Office Furniture

Archivo2000 offers a wide selection of furniture and accessories that match any office perfectly.

WIDE VARIETY OF COMBINATIONS AND COLOURS

The drawers glide open smoothly and can be used independently once removed from their slots in the storage tower.

Storage Towers

Practical organisation system with 6 litre drawers, made of polypropylene copolymer, which allows it to withstand extreme temperatures and provides high durability and sturdiness. Production with an antistatic additive facilitates cleaning as it prevents the accumulation of dust.

EVERYTHING IS ORGANIZED!

6 BRIGHT AND HAPPY TRANSLUCENT COLOURS ARE WAITING FOR YOU TO COMBINE THEM HOWEVER YOU LIKE.

Stackable towers of up to 6 drawers are possible, simply by placing one module on top of another.

It goes where you go...

The possibility of simply placing 4 multi-directional wheels on the base allows the creation of mobile carts, facilitating movement and mobility.

The extension module Ref. 1001A TL, allows the creation of limitless combinations and the placement of 6 litre drawers on top of the storage tower.

ArchiPlay

Display cases in transparent high quality injected polystyrene. Attractive presentation and easy location of content.

Vertical or horizontal DIN A4 models with up to 10 dividers and 5 compartments. Available in 2 transparent colours.

Adjustable to different paper sizes: DIN-A4 (vertical and horizontal), 1/3 DIN-A4 vertical, DIN-A5 and 210 x 210 mm

Display cases in transparent high quality injected polystyrene.

Interior measurements of compartments:
DIN-A4 in vertical: 27 x 234 x 300 mm
DIN-A4 in horizontal: 27 x 324 x 210 mm

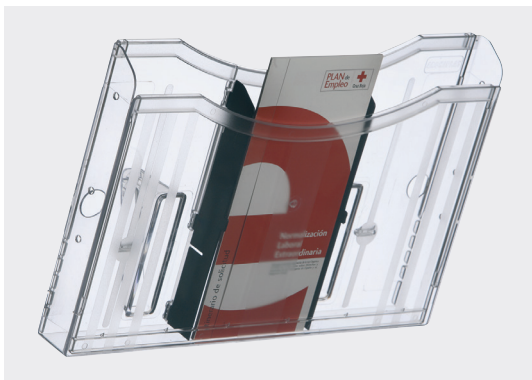

Adaptable to different paper sizes thanks to its moveable dividers.

Delivered completely assembled, ready to be mounted on a wall in only a few minutes (screws and wall plugs are provided).

The set protrudes 150 mm from the wall in the vertical models, and 115 mm in the horizontal ones.

Create your own ArchiPlay A4 wall-mounted display, vertically or horizontally, simply by combining the individual pieces!

SCREWS AND PLUGS INCLUDED

Build a custom Archiplay

You can assemble your own custom ArchiPlay A4 wall-mounted display, both vertically and horizontally, by purchasing individual pieces in either of the 2 available colours (transparent or blue).

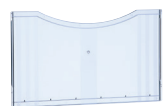

HORIZONTAL ARCHIPLAY BUILDING

REF. 6100 MH TP

REF. 6100 BH TP
